

ADDA TECH Automated Backup Services Overview

- No setup fee
- Backup files available for restoring 24/7
- Data is securely backed up off-site in two (2) highly secure, disaster-proof buildings and encrypted for your safety and privacy
- Keeps multiple file versions (the last 30 backups are maintained)
- Automated backups are scheduled daily (or several times per day) without work interruption
- Backup any file/folder on your network that you don't ever want to risk losing
- Secure – 448-bit SSL encryption (almost 4x higher than that used by banks)
- Extreme data compression – up to 90%
- Restore single files, multiple files or all files from any of the last 30 backup sets
- Email notification for every backup process
- A qualified technician verifies that your backup has run when scheduled
- You are the only one who has access to your backed up data
